DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1 specifies in step "f," "(f) closing means to discharge slag from the second vessel and repeating steps (a) to (f)." As drafted, step "f" renders claim 1 a closed loop that will keep repeating the steps in perpetuity. It is unclear if this is what Applicants intended? The art rejections have been withdrawn, since the art does not teach or suggest such a perpetual loop.
